Notes, Terms & Conditions (where applicable)

“Green” Open Access and Author Archiving: Authors who do not wish to pay for the ERJ Open option will still have their manuscripts made free to access via the ERJ online archive following the journal's 18-month embargo period; after this embargo period, authors also have licence to deposit their manuscripts in an institutional (or other) repository for public archiving, provided the following requirements are met:

1) The final, peer-reviewed, author-submitted version that was accepted for publication is used (before copy-editing and publication).

2) A permanent link is provided to the version of the article published in the ERJ, through the dx.doi.org platform. For example, if your manuscript has the DOI 10.1183/09031936.00123412, then the link you provide must be dx.doi.org/10.1183/09031936.00123412

3) The repository on which the manuscript is deposited is not used for systematic distribution or commercial sales purposes.

4) The following required archiving statement appears on the title page of the archived manuscript: “This is an author-submitted, peer-reviewed version of a manuscript that has been accepted for publication in the European Respiratory Journal, prior to copy-editing, formatting and typesetting. This version of the manuscript may not be duplicated or reproduced without prior permission from the copyright owner, the European Respiratory Society. The publisher is not responsible or liable for any errors or omissions in this version of the manuscript or in any version derived from it by any other parties. The final, copy-edited, published article, which is the version of record, is available without a subscription 18 months after the date of issue publication.”

Authors of articles published under one of the Creative Commons licences (this includes all articles in ERJ Open Research, European Respiratory Review and Breathe) retain further rights to share, reuse or adapt their manuscript. The extent of these rights depends on the specific Creative Commons licence used. Please consult the relevant section of the online instructions for authors. These publications are copyrighted material and must not be copied, reproduced, transferred, distributed, leased, licensed, placed in a storage retrieval system or publicly performed or used in any way except as specifically permitted in writing by the publishers (European Respiratory Society), as allowed under the terms and conditions of which it was purchased or as strictly permitted by applicable copyright law. Any unauthorised distribution or use of this text may be a direct infringement of the publisher's rights and those responsible may be liable in law accordingly. Copyright remains with ©ERS 2018.
